Construction Design:
ACG – Ayre Chamberlain Gaunt

strawberrystar.co.uk/bronze

Our £50 million scheme at Buckhold Road is the crowning glory not only of the Wandsworth Business Village but of Wandsworth itself. A 20-storeyed bronze clad tower with many units commanding views across the park and on to Central London.

Bronze fits with the theme of the lighting/lamp industrial heritage of the local area, but with a modern, more abstract appeal with its name reflecting the fantastic colour of the building's cladding.

With excellent public transport links, Wandsworth is well situated for getting into and around the centre of London. The development is located a 12-minutes-walk from Wandsworth Town station, 16-minutes-walk to the East Putney Tube station, 49 minutes by Tube to Canary Wharf and 38 minutes to Oxford Street in the West End. Wandsworth is a popular residential area and Bronze offers stunning views over King George's Park.

Home to central London's biggest regeneration area – on the South Bank – a multi-billion-pound investment programme is transforming this largely industrial district of Wandsworth into a brand new residential and business quarter. Several transformational large scale residential schemes have been undertaken over the last 10 years, particularly, the River Thames, 0.5 km to the north.

Many areas of London have gone through a period of regeneration, but none has done as well as Wandsworth. The completion of Bronze will be part of this exciting regeneration.

Build-to-Rent

Build to Rent (BTR) is a key component of our strategy to deliver 4,000 homes by 2025. A mature and established sector in the US and parts of Europe, it is in the growth phase, here, in the UK, where lifestyles are changing, and rent is no longer plan b. Millennials have been joined by Generation X and Baby Boomers turning to rent for location flexibility, lifestyle, and amenities. The success of the first BTR development (Olympic village), spurred others across the UK and propelled BTR to the forefront of PRS as its development pipeline grew five-fold between 2014-2018 [source: Savills].

BTR is now gathering traction with government, institutional investors, and developers as a way to meet the demand for quality, well-managed housing and for long-term income streams alongside capital growth.

Our Asset Management Team brings international as well as UK sector experience, underpinned by data-driven facilities, operations, building, property, marketing and letting decision making and management processes.

Strategy

Our primary objective is to deliver safe and secure homes, with exemplary service. The right locations, the right design, and the right amenities for the right demographic creating a sense of place and building communities. Placemaking and a sense of belonging are the keys to residents staying longer and reducing the risk of rent voids.

Community Building

We believe that inclusion is the most important aspect of community building. An invitation to an event matters much more than the event itself. Our teams have clear objectives to curate community events and activities that promote inclusion irrespective of your background, age, gender, nationality, etc. Everyone is invited and everyone is included.

When community building is a focus, it keeps residents coming back year-after-year and provides a valuable difference between the majority of buy-to-let buildings that may be on offer.

Commercial Property

Our commercial vision is closely connected to that of our residential homes; building futures, communities, and places people want to live, work and visit.

Working with local authorities, planners, architects, designers, brands and independents to build award-winning developments. Creating a sense of place and delivering the right amenities and services – the key to success for any new community.
